

Food and Drink

Whether you're a connoisseur or simply an enthusiast, food and drink cruises offer a fun and fascinating way to expand your horizons. Sailings might showcase gastronomical regions along Europe's famed waterways or the wine tradition of the Pacific Northwest in the United States, among other destinations.

Excursions to celebrated wineries, breweries and distilleries are often combined with tastings, food pairings and lectures hosted by experts. Most excursions and onboard tastings are included in the price of your cruise, though there may be some optional activities available for an additional cost. As always, your accommodations and onboard meals and entertainment are covered in the upfront price.
