

## Family Experiences

Share the enjoyment of visiting famous sites and hidden treasures with your children or grandchildren on a family-friendly river cruise. Most family cruises depart in the summer and feature special shore excursions tailored specifically for families. Onboard amenities might include game rooms with amusements for guests of all ages or craft workshops that explore local artistic styles. Child-friendly entertainment and meals are also available onboard.

Onboard entertainment and guided sightseeing ashore are included with your cruise, as are all accommodations and most meals. Typically, the minimum age allowed on these family cruises is three or four and will vary by company.
