

INSIDE ARK

Full-Size Noah's Ark

At 510 feet long, 51 feet high, and 85 feet wide, Noah's Ark stretched an American football field and a half long. That's large enough to fit thousands of visitors to see the dozens of exhibit bays at Ark Encounter.

Beautiful Craftsmanship

Ark Encounter is the largest timber-frame structure in the world, built from standing dead timber, in part by skilled Amish craftsmen. The Ark is an architectural and engineering wonder containing three decks of world-class exhibits.
